

## "DRIVE AWAY" LYRICS

Bad news breaking through my radio  
Stocks up and down like dominos  
Optimism is running low  
I don't need to hear it again

Finders point to the left and right  
Kingpins lying through their pretty whites  
Scandals cutting like a rusty knife  
In a battle that never ends

Well I've seen enough of this puppet show  
Now it's time for me to go

I'm gonna drive away  
And leave my worries in the dust  
Been in last place of this rat race for long enough  
I'm gonna drive away  
I'm gonna push that pedal down  
So if you're looking for me, I won't be around  
I'm gonna drive away

Office cutbacks are getting rough  
Gossip's spilling out the water cups  
And I don't know who I can trust  
It's getting harder all the time

Pressure's building in my head  
I'm caught in some kind of web  
But I'll prove that my dreams ain't dead  
Once I see that highway sign

Cause I'm gonna drive away  
And leave my worries in the dust  
Been in last place of this rat race for long enough  
I'm gonna drive away  
I'm gonna push that pedal down  
So if you're looking for me, I won't be around  
I'm gonna drive away

I'm not asking you to follow  
Not telling anyone to change  
Not trying to start a revolution  
But I must be on my way  
Yeah, yeah

I'm gonna drive away  
And leave my worries in the dust  
Been in last place of this rat race for long enough  
I'm gonna drive away

## “DRIVE AWAY” LYRICS

I'm gonna push that pedal down  
So if you're looking for me, I won't be around  
I'm gonna drive away  
I'm gonna drive away

I don't need a map to break out of this trap  
I'll let the open road show me where to go  
I'll be MIA, when I'm out of this maze  
I'll leave it all behind me, gonna drive away
