

"ONE SMILE" LYRICS

One smile could make a difference
One smile could change it all
One smile could make a difference

She's the new kid in school from another zip code
And her name is the punchline for the other kids jokes
When the lunch bell rings, you'll see her sitting alone
And if you're feeling afraid to say hello

One smile could make a difference
One smile could change it all
One smile could make a difference
One Smile

He was born in a place pretty far from here
His skin's a different color and his words are a little unclear
People act so nervous, when he's walking their way
They just stare at the ground, like they don't know what to say

One smile could make a difference
One smile could change it all
One smile could make the difference
One smile
You can break away the sadness
Bring some hope to the hopeless
Make the world a little brighter
With one smile

We all want to make this world a better place
But we don't know where to start (Don't know where to start)
Don't know where to start
Start with one smile

One smile could make a difference
One smile could change it all
One smile could make the difference
One smile
You can break away the sadness
Bring some hope to the hopeless
Make the world a little brighter
With one smile
